Rebellion
ENERGY SOLUTIONS

To Whom It May Concern:

I am writing on behalf of Rebellion Energy Solutions to clarify that Rebellion's terminal decline policy applies retroactively, and, pursuant to that policy, a specified quantity of carbon credits generated by Rebellion's Heartland 2 project and Heartland 1 project will be reserved and withheld from sale.

In light of the application of Rebellion's terminal decline policy to the Heartland 1 and 2 projects, I hereby confirm that the following number of credits generated by the projects will be reserved and not offered for sale:
Heartland 1: 3,711
Heartland 2: 792,024

Pursuant to Rebellion's terminal decline policy, the credits identified above shall be held in reserve and will not be transferred, sold, or otherwise conveyed to any third party. This reservation reflects Rebellion's commitment to the integrity of its credit accounting methodology and the consistent application of its terminal decline policy across all applicable projects. Please don't hesitate to direct any further questions regarding this reservation or the underlying policy determination to my attention.

Sincerely,
Staci Taruscio, CEO
